# Municipality of lalisos

The town of Jalisos - Areas of : 1. Filerimos, 2. Trianda, 3. Ixia

lalisos (or Trianda), birthplace of Olympic Heroes, a site of amazing sunsets and a hub of tourism, conferences, religion, culture, clubing and sports. It used to be one of the three great ancient cities of Rhodes, which together with Lindos, Kamiros, Kos, Knidos and Alikarnasos formed the Dorian Exapolis (six-cities federation). The area was first settled by the pre-hellenic tribe of Kares, followed by the Phoenicians. Tradition has it that the town of lalisos, acquired fame thanks to the Olympic Champion Diagoras. Ialisos took part in the Athenian wars until 412 BC. In the Middle Ages, the area came under the rule of the Knights of the Order of St. John, authors of many monuments and buildings. Ruins of the Acropolis of lalisos, witness the existence of a once grandiose Dorian temple, dedicated to Goddess Athena (Minerva) and Dias.

Today the municipality of lalisos is a popular cosmopolitan resort. The modern hotel units of lalisos, in the zones of Trianda and Ixia play host to thousands of guests all through the year - holiday makers, conference attendees and business people, with peak times

between March and October. Guests enjoy the sun, sea, water sports, beach soccer and beach volley on the organized beaches, to mention but a few of the many opportunities for leisure available on the waterfront. Ialisos beach is one of the most favored international destinations for Windsurfing, Kitesurfing and Sailing fans. Nights are full of light and excitement, thanks to a multitude of coffee shops, bars and Greek Tavernas, in the center of the towns of Trianda and Ixia, catering to all tastes. Traditional Greek hospitality is combined with the scenic delights of the region and an abundance of archaeological sites.

On the green slopes of Filerimos one can visit the monastery of Virgin Mary as well as the ruins of the ancient acropolis. Moreover, visitors may enjoy the natural beauty of the landscape and the unique view on the sea while trekking, horse riding or mountain-biking. The neo-classical houses, Byzantine churches, and the numerous residences and fortified mansions dating from the Knight's era in the area, are of special interest.

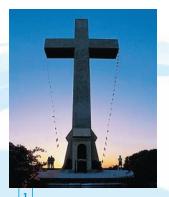

Most of the luxury hotels of lalisos town in the lxia area feature ultramodern and fully equipped conference halls, apt for a successful hosting of international conferences, meeting the requirements of even the most demanding organizers, which have righteously made the reputation of lalisos as a high standard conference tourism destination throughout the Mediterranean.

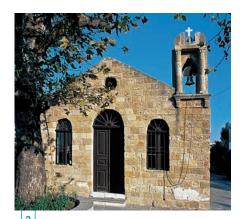

Basking in the lush green of pine trees and cypresses, **Filerimos** is the site of the ancient acropolis of the town of lalisos, harboring amongst other the remains of the ancient temple of Athena Polias. In Byzantine times the hill featured a fortress whereas in the 13th century this became the site of construction of monastery dedicated to Holy Mary. During the Knights era, the monastery, originally of the Greek Orthodox Rite, was taken over by Catholic monks, who had its installations enlarged and gave it a much greater aura. Today one can visit the ruins of the ancient acropolis and the monastery, in its current, beautifully restored version, the work of Italians during the period over which the Dodecanese was under Italian Rule. Visitors can walk up the Calvary way and climb to the top of the **Filerimos Cross**, marveling at the beautiful views over lalisos bay and the runways of both Rhodian airports, namely the old and the new one. Pictured below (middle) is the icon of "**Our Lady of Filerimos**", the original of which is currently in Montenegro.

**Byzantine church of Saint Nicholas**, situated in the center of Ialisos town, in Trianda next to the new big square. Trianta is a lively town

with a rich cultural tradition. The stunning church frescoes date from the 15th century.

Along the streets of the town of Ialisos (Trianda), there rise several **elegant mansions built in neoclassical style**, many of which were originally commissioned by opulent Rhodian tradesmen. At one time requisitioned by Italian officials during the Italian Rule, these beautiful houses are presently inhabited by Rhodian families.
